Subject Index

Admissions Procedures:

As forecasters of performance in medical training, Gough *et al.*, 983—(*Abstract*), 137

Alan Gregg Lecture:

The expanding functions of medical education, Rappleye, 895

Anatomy:

Correlation with clinical problems using television (*Abstract*), Gius and Scheldrup, 787

Trends hampering the quality of instruction in (*Abstract*), Gardner, 786

Use of lecture response device in a co-ordinated teaching program in (*Abstract*), Bridgman, 784

Animal Care:

History of British Act of 1876 to amend cruelty to animals law, Ryan, 182

Program of education and public relations contributing to passage in 1963 of the Connecticut "Dogs for Research" Bill (*Communication*), Hume, 1055

Association of American Medical Colleges:

Annual Awards (1963): Abraham Flexner Award to Lowell T. Coggeshall, Womack, 895; Alan Gregg Lecturer—Willard C. Rappleye, 899; Borden Award to Klaus Heinrich Hofmann, Visscher, 906; (*Editorial*), Cooper, 970

Continuation Medical Education: Annual Conference, 394

Continuing Group on Student Affairs: History and function of, Caughey, 7; Sixth Annual Meeting, 389

Division of Education: Programs and proposals, Sanazaro, 65

Institute (1963): Medical school and practicing profession (*Foreword*), Wolf, 451; Program, 452

Institutional Membership Meeting, 381

Medical School—Teaching Hospital Section: Fifth Annual Meeting, 395

Meeting (Annual) 1962: Borden Award to Leon Orris Jacobson, 399; Abraham Flexner Award to George Packer Berry, 399; Alan Gregg Lecturer, C. Sidney Burwell, 399; Business Meeting, 401; Foreign Guests, 399; Introduction of New Deans, 397; New Vice Presidents and Vice Chancellors, 398; Program of General Session, 400

National Institutes of Health—Medical Schools: Regional Meetings, 384

Officers of (1962-63), 446

Presidential Address, Anderson, 1

President's Acceptance Message (1962), 443

Reports: Of the *Ad Hoc* Committee on Medical School Architecture, 437; Of the Chairman of the Executive Council, 401; Of the Committee on Animal Care, 430; Of the Committee on Continuation Education, 430; Of the Committee on Federal Health Programs, 431; Of the Committee on International Relations in Medical Education and the Division of International Medical Education, 424; Of the Committee on Medical Care Plans, 435; Of the Committee on Medical Communications, 433; Of the Committee on Medical Education for National Defense, 436; Of the Committee on Medical School-Affiliated Hospital Relationships, 438; Of the Committee on Medical School—Veterans Administration Relationships, 441; Of the Committee on Research and Education and the Division of Basic Research, 421; Of the Committee on Student Affairs, 439; Of the Director of Business Affairs, 413; Of the Director, Division of Operational Studies, 416; Of the Editor and Editorial Board, 423; Of the Executive Director, 407; Of the Nominating Committee, 430; Of the Secretary, 408; Of the Treasurer, 410

Research in Medical Education: First Annual Conference—Abstracts, 135, Program, 444; Second Annual Conference—Abstracts, 781

Borden Award:

To Klaus Heinrich Hofmann, Visscher, 906

Comprehensive Medicine: See Curriculum, Family Medicine

Communications:

Adventure in medical (*Editorial*), Woolsey, 342

Bilingual audio-visual aid, Taxay *et al.*, 80

Electronics and medical education, Brown, 270

Facilities for communications systems in medical education, Green and Millard, 282

Films for medical education, Leveridge, 307

In American medical centers, Ruhe, 239; In basic science teaching, Markee *et al.*, 226; In medical education (*Foreword*), Woolsey, 225; In science and medicine (*Editorial*), Cooper, 879

Medical Communications Committee (*Editorial*), Woolsey, 339

Medical illustration, Drake, 300

Models as a medium of, Huber, 315

Paradox in (*Editorial*), Woolsey, 340

Programmed Instruction: Green and Weiss, 264; Suggestion for those developing and evaluating (*Editorial*), Woolsey, 341; Thinking men and thinking machines in medicine, Dryer, 82; Use of digital computer as teaching machine, Entwisle and Entwisle, 803

Research in and teaching-learning processes, Greenhill, 495

Teaching aids (*Editorial*), Woolsey, 341

Television: Closed-circuit, Merrill, 329; Compared with laboratory exercise in measuring achievement in science reasoning about physiology, Staub and Merrill, 813; In continuation medical education, Rising and Nelligan, 75; In freshman anatomy correlated with clinical problems (*Abstract*), Gius and Scheldrup, 787; In graduate and post-graduate medical education, Michael, 261; Open-circuit in post-graduate medical education, Castle, 254; South Carolina experiment in, Groom, 202

The printed word, Garland, 292

Two-way radio, Ebbert, 319

Continuation Education:

Activities of medical schools in field of, Ruhe, 820

AAMC Annual Conference, 394

Future role of the medical school in, Howard, 28; (*Editorial*), Perera, 116

Television in: Rising and Nelligan, 75; South Carolina experiment, Groom, 202

Curriculum:

Basic Sciences: New developments in teaching physics, Kelly, 571

Behavioral Sciences: Program for first year medical students, Shatin and Nenno, 839

Comprehensive Medicine Programs: Medical education and community needs, Goerke *et al.*, 858; Experiments in teaching family medicine, Stokes *et al.*, 539

For East Africa, Lunn and McAdam, 13

Medical psychology course survey, Querol *et al.*, 195

Teaching of hospital-physician relations in medical curriculum (*Abstract*), Cadmus, 784

Trends in, Christie, 662

Undergraduate: In mental retardation (*Communication*), McIntire and Dutch, 973; Reflections on, Loeb, 658; Role of the department of social medicine in, Acheson, 676

Datagrams:

Accepted vs. enrolled medical students, 977; Application activity and MCAT data of applicants to the class of 1962-63, 774; Estimated costs for expansion and renovation of educational and research facilities in U. S. medical schools, 1963-73, 703; Foreign students in U. S. medical schools, 1059; How closely is the supply of U. S. medical school graduates keeping pace with the population, 890; Preview of trends in financing of medical education, 217; Tenure in office of U. S. medical school deans, 58; Tenure, promotions and sabbatical leave policies of U. S. medical schools, 448; Trends in tuition levels for four-year medical schools in the United States for selected academic years from 1933-34 to 1963-64, 130; Variations in expenditures from funds designated for sponsored research and from funds available for non-research projects as between 26 private and 16 public schools, 1941-61, 343; Variations in sources of expenditures from funds designated for sponsored research as between private and public medical schools, 1941-61, 609; Women in medicine, 518

Education:

See also Medical Education

Changing attitudes of college students and teachers toward scholarship, Cohen, 95; Research in, Keppel, 1004

Role of the University, Wessell, 491

Evaluation:

Clinical: Grading clinical performance in psychiatry, Salzman, 746—(*Abstract*), 141; Of clinical skills (*Abstract*), Berg, 783; Of teaching by students, Cotsonas and Kaiser, 136; Problem in the clerkship (*Abstract*), Mendel and Green, 794

Examinations: A process approach to the construction and analysis of, McGuire, 556—(*Abstract*), 139; Grading of answers to multiple choice questions (*Abstract*), Koch *et al.*, 792; Relationship between performance on written examinations of the American Board of Internal Medicine and on Part II of National Board Examinations (*Abstract*), Kelley *et al.*, 792

Of effect of group discussion method in a complex teaching program, Erskine and Tomkin, 1036; Of programmed learning in radiology (*Abstract*), Felson *et al.*, 786; Of student dissertation (*Abstract*), Hayes, 789

Examinations: See Evaluation

ton, 401; Dartmouth, 264, 631; Duke, 885; Albert Einstein, 725; Florida, 261, 790; Georgetown, 781, 801; Hahne-mann, 880; Harvard, 20, 140, 142, 145, 264, 319, 401, 539, 547, 596, 631, 667, 737; Johns Hopkins, 631, 676, 803; Howard, 401; Illinois, 136, 139, 264, 401, 556, 742, 783, 794; Indiana, 752, 789, 895; Iowa, 369, 401, 787, 983, 1029; Jefferson, 788; Kansas, 128, 495, 725, 784, 865, 871, 920; Kentucky, 401, 920; Loma Linda, 401, 920; Louisiana, 401, 920; Marquette, 786; Maryland, 631, 725, 800, 803; Mayo Foundation Gradu-ate School, 591; Miami, 80, 920, 949; Michigan, 72, 785, 983; Minnesota, 725, 906; Missouri, 725, 793; Nebraska, 973, 983; New Mexico, 135, 401; State Uni-versity of New York (Brooklyn), 401, 983; New York Medical College, 435, 782; New York University, 145, 794; North Carolina, 319, 360, 401, 784; North Dakota, 401; Northwestern, 725; Ohio State, 401, 787, 800; Ohio Wesley-an, 141; Oklahoma, 401; Oregon, 138; Pennsylvania, 596, 631; Pittsburgh, 782, 906; Rochester, 141, 564, 746, 798; Set-ton Hall, 401, 839; South Carolina, 202; Stanford, 725, 920, 1029; Stritch, 140, 401; Syracuse, 737, 1029; Temple, 784, 791, 795; Tennessee, 401; Texas (Galveston), 401; Texas (Dallas), 793; Tufts, 319, 401; Tulane, 825, 971; Utah, 103, 401, 797, 983; Vermont, 596; Vir-ginia, 796, 1016; Washington (St. Louis), 983; Washington (Seattle), 401; Wayne State, 401, 801; Western Reserve, 137, 547, 596, 781, 790, 793; West Virginia, 401, 725; Yale, 319, 631, 676, 920

Medical Students:

Accepted vs. enrolled medical students (*Datagram*), 977
 Application of group dynamics to medi-cal education, King and Zimmerman, 871
 Appraisal of pediatric learning (*Ab-stract*), Turner and Robertson, 800
 Behavioral sciences teaching program for, Shatin and Nanno, 839
 Characteristics: Intellectual and person-ality of, Kole and Matarazzo, 138; In-terest and personality factors as related to choice of medical career, Schumacher, 932; Study of biographical and other measures of preparation for self-edu-cation of (*Abstract*), 790; Factors in-fluencing choice of medical career of Philippine medical students (*Abstract*), Bowers, 783
 Correlates of diagnostic problem solving in (*Abstract*), Sprosty, 141
 Decision for medicine (*Abstract*), Nel-son, 795

Detection of potential academic difficul-ties among freshmen at Georgetown University School of Medicine (*Ab-stract*), 781
 Effect of a course in family medicine on skills and attitudes of, Stokes *et al.*, 547
 Evaluation of clinical teaching by, Cot-sonas and Kaiser, 742—(*Abstract*), 136
 Examination cycle of in Japan (*Com-munication*), Bowers, 123
 And faculty perception of medical roles (*Abstract*), Korman and Stubblefield, 793
 Financial Situation: Loan funds (*Edi-torial*), Cooper, 447; Loan funds or scholarships? (*Editorial*), Cooper, 211; Loan funds in American medical schools, Ceithaml and Whiting, 347
 Foreign: We tend to remember our troubles (*Editorial*), van Zile Hyde, 692
 Integration of psyche and soma in stu-dent's image of patient (*Abstract*), Webster, 142
 Opinion on medical school acceptance dates, Johnson *et al.*, 1029
 Performance: A factor-analytic study of various criteria of accomplishment of (*Abstract*), Schumacher, 798; Direct observation as a method of teaching and evaluation of (*Abstract*), Hinz, 137; High, middle and low achievers of equal ability in a medical school set-ting — interim report (*Abstract*), Schwartzman *et al.*, 799; Of physicians' children at Temple University School of Medicine (*Abstract*), Campbell, 784; Prediction of success in medical school, Conger and Fitz, 943—(*Abstract*), 135; Rationale and application of diag-nostic skills, Rimoldi, 364—(*Abstract*), 140; Relationship of structuring be-havior to learning and (*Abstract*), Frankel and Motto, 136; Role of struc-ture in, Frankel and Motto, 164; Sem-inar versus lecture, and prediction of (*Abstract*), Netsky *et al.*, 796
 Professional, ethical and intellectual at-titudes of, Rosinski, 1016
 Psychological problems of (*Editorial*), Seegal, 605; (*Editorial*), Lief, 971
 Rationale for grouping of (*Abstract*), Work, 802; (*Communication*), Work, 214
 Short and long-term predictions about, Hoffman *et al.*, 852
 Teacher, student, patient ratios, Bull, 667
 Training of in international cross-cul-tural medicine, Fulmer *et al.*, 920
 Understanding of hospital physician-re-lations, Cadmus and Glass, 360
 Use of group dynamics technique in teaching of psychiatry to (*Abstract*), Rossello and Morales, 798
 Women in medicine (*Datagram*), 518

Medicine:

Communication in science and (*Editorial*), Cooper, 879

Present scope of, Pickering, 681

Science and (*Editorial*), Prior, 765

Nursing Education:

Students' perceptions of working with physicians (*Abstract*), Fox *et al.*, 786

Pathology:

Teaching of (*Abstract*), Marienfeld, 792

Pediatrics:

Education in and a learning disability clinic (*Abstract*), Hammond, 789

Joint committee on research, education and practice in (*Communication*), Steigman, 125

Student appraisal of pediatric learning (*Abstract*), Turner and Robertson, 800

Teaching of mental health concepts through pediatric-psychiatric supervision (*Abstract*), Woolley *et al.*, 801

Physicians: See Medical Practice**Physician to Patient Ratio:**

How closely is the supply of U. S. Medical School graduates keeping pace with the population (*Datagram*), 890

Post-Graduate Education:

See also Medical Education—Graduate, Postgraduate

Psychiatric project in, Mead and Fishman, 103

Preventive Medicine:

Recurrent themes in teaching of, Felton and Katz, 374

Role of the department of social medicine in undergraduate medical education, Acheson, 676

Psychiatry:

Grading clinical performance in, Salzman, 746—(*Abstract*), 141

Place of psychoanalysis in training programs in (*Abstract*), Astley, 782

Project in postgraduate education in, Mead and Fishman, 103

Teaching: In mental health concepts through pediatric-psychiatric supervision (*Abstract*), Woolley *et al.*, 801; Practical psychiatry (*Abstract*), Jacobson and Jacobsohn, 791; To medical students, Lester and Hudson, 90; Use of group dynamics technique in (*Abstract*), Rossello and Morales, 798

Undergraduate training program in clinical psychiatric research (*Abstract*), Bard *et al.*, 782

Psychological Medicine:

Survey of course in, Querol *et al.*, 195

Undergraduate teaching in as applicable to general practice, Clyne, 961

Research:

Congress and Science (*Editorial*), Cooper, 1043

Cooperative, in medical education, Ginter, 718

Education: Keppel, 1004; Program of public relations contributing to passage of the Connecticut "Dogs for Research" Bill in 1963, Hume, 1055; Programs and proposals of AAMC Division of Education, Sanazaro, 65; Second Annual Conference on in Medical Education (*Communication*), 216

Funds: National Institutes of Health, resources and responsibilities (*Communication*), Stone, 771; Variations in expenditures from sponsored research and non-research project funds, between 26 private and 16 public schools, 1941-61 (*Datagram*), 343; Variations in sources of expenditures from funds designated for sponsored research as between private and public medical schools 1941-61 (*Datagram*), 609

History of British Act of 1876 to amend cruelty to animals law, Ryan, 182

Participation program in as a supplement to formal academic training in science (*Abstract*), Mirand *et al.*, 795

Requiem or reveille—the clinician's choice, Romano, 584

Residents, Residency:

Care of private patients in education of, Young, 465

Correlation between performance in medical school and in residency training, Johnson *et al.*, 591

Orientation to education, Husted and Hawkins, 111

Secondary Education:

CHEM Study—a fresh approach to chemistry in, Merrill, 34

Summer bio-science program in (*Communication*), Satinsky, 880

Specialization:

Impact on medical education, Waldenström, 644

Interest and personality factors as related to choice of medical career, Schumacher, 932

Statistics:

Effect of training on performance in test of diagnostic skills, Haley, 137

New approaches to teaching of in University of Florida's College of Medicine (*Abstract*), Hoffman, 790

Rationale and application of test of diagnostic skills, Rimoldi, 364

Thinking men and thinking machines in medicine, Dryer, 82

Studies:

- Of applicants, 1961-62, Hutchins, 707;
- Of applicants, 1962-63, Hutchins, 999
- Of biographical and other measures of preparation for self-education in medical students (*Abstract*), Horowitz and Williams, 790
- Of careers of physicians—progress report (*Abstract*), Mawardi, 793
- Of non-entrants and high ability rejected applicants to 1958-59 entering class of U. S. medical schools, Hutchins and Morris, 1033
- Of teaching in a clinical clerkship (*Abstract*), Adams, *et al.*, 781
- Profile, in relation to a high school program (*Abstract*), Vernier *et al.*, 801

Surgery:

- Teaching and learning of, Zuidema and Child, 72

Teaching and Learning:

- Communication research and, Greenhill, 495
- Comparison of learning attitudes (*Abstract*), Graves, 787
- Learning process relating to integration of psyche and soma in the student's image of the patient (*Abstract*), Webster, 142
- Medical communications in basic science, Markee *et al.*, 226
- Models as a medium of medical communication, Huber, 315
- Motivation and learning in medical schools, King and Zimmerman, 865
- Rational approach to (*Abstract*), Hargrove, 788
- Role of structure in academic performance in medical students, Frankel and Motto, 164
- Student evaluation of clinical teaching, Cotsonas and Kaiser, 742
- Of surgery, Zuidema and Child, 72

Teaching Methods:

- Application of group dynamics to medical education, King and Zimmerman, 871
- Attainment of higher cognitive abilities through use of the student-centered group (*Abstract*), King and Zimmerman, 138
- Bilingual audio visual aid, Taxay *et al.*, 80
- Changing attitudes of college students and teachers toward scholarship, Cohen, 95
- Conference type presentation of undergraduate dermatology, Goldman, 207
- Construction and analysis of medical examinations, McGuire, 556

A digital computer as a teaching machine, Entwisle and Entwisle, 803

Direct observation as a method of teaching and evaluating student performance in the case method (*Abstract*), Hinz, 137

Effect of group discussion in a complex teaching program, Erskine and Tomkin, 1036

Electronics and medical education, Brown, 270

Experiment in teaching family medicine, Stokes, *et al.*, 539

Group dynamics technique in teaching of psychiatry to medical students (*Abstract*), Rossello and Morales, 798

New developments in teaching physics, Kelly, 571

Objective evaluation of student dissertations (*Abstract*), Hayes, 789

Observations of undergraduate clinical teaching in action (*Abstract*), Reichsman *et al.*, 798

Preliminary evaluation of programmed learning in radiology (*Abstract*), Felson *et al.*, 786

Preliminary report on a lecture response device in a coordinated teaching program in anatomy (*Abstract*), Bridgman, 784

Programmed Instruction: Green and Weiss, 264; Versus textual presentation in diagnostic radiology (*Abstract*), Cheris and Cheris, 785; Large group presentations (*Abstract*), Huber, 791

In psychiatry, Lester and Hudson, 90

Recurrent themes in teaching preventive medicine, Felton and Katz, 374

Resident orientation to education, Husted and Hawkins, 111

Seminar versus lecture and prediction of performance by medical students, Net-sky *et al.*, 796

Study of in clinical clerkship (*Abstract*), Adams *et al.*, 781

Teaching aids (*Editorial*), Woolsey, 341

Television: Application of videotape recording via closed circuit to group practice and criticism in the art of teaching (*Abstract*), Staub *et al.*, 799; Closed circuit, Merrill, 329; In continuation medical education, Rising and Nelligan, 75; In graduate and post-graduate medical education, Michael, 261; Open-circuit in postgraduate medical education, Castle, 254

Training physicians in use of radioisotopes (*Communication*), Witherell and Cowing, 699

Two-way radio, Ebbert, 319

Universities:

- Role of, Wessell, 491
